Revenues for the six months to 31 December 2017, which includes a full six months' trading contribution by RIG Healthcare Group ("RIG"), our recent UK acquisition, increased by 12% to \notin 256.7 million. Our gross profit increased by 12% against the same period last year to \notin 40.5 million. The Group's profit before tax was \notin 9.0 million for the six months to 31 December 2017, an 11% increase on the same period last year. Our conversion rate of gross profit to operating profit (excluding non-cash foreign currency translations and LTIP charges) was 23.1% in the period.

The non-cash LTIP charge was $\notin 0.5$ million in the six months to 31 December 2017 (2016: $\notin 0.4$ million). The LTIP charge for the six months to 31 December 2017 reflects current expectations in relation to the achievement of performance targets included in the LTIP awards.

The Group delivered a 15% increase in earnings per share to 26.4 cent for the six months to 31 December 2017, positively impacted by the Tender Offer which completed during the period.

The Group continues to work with clients to understand their specific requirements and with our candidates in order to match their skills to those client requirements. The proportion of our net fee income that is made up of temporary fees has increased from 63% in the same period last year to 68%, driven primarily by RIG's revenue mix but also by organic growth across our sectors. This shift in our business model is reflective of a global move toward the "gig economy" and greater flexibility for client and candidate alike. We also improved the margin on our temporary business to 11.3% (2016: 10.6%).

We have invested significantly in our technology platform over the past few years and are delighted to be pioneering one of the first artificial intelligence tools in the recruitment sector. Cpl is committed to staying at the forefront of AI and machine learning technology in order to make the recruitment process faster and more efficient for the benefit of our candidates and clients.

We continue to grow and develop our people within the Group and on behalf of the Board I wish to express my gratitude for the continuing hard work and dedication of all of our people and for their commitment to the Group.

Tender Offer

During the six months ended 31 December 2017, the Group returned \notin 25 million of surplus cash to its shareholders by way of a fixed price tender offer (the "Tender Offer"), considering this to be the most effective use of those shareholder funds. The Tender Offer was fully subscribed and successfully executed, with the Company repurchasing and cancelling 3,703,703 shares at a price of \notin 6.75 per share, thereby reducing the issued share capital by approximately 12%.

Cash

The continued strength of our Balance Sheet reflects the positive cash-generating capability of Cpl. The Group has a net cash balance of $\notin 12.4$ million as at 31 December 2017 (2016: $\notin 35.2$ million). In the six months to 31 December 2017, $\notin 9.8$ million was generated in cash flow from operating activities before tax and changes in working capital. Although our business requires significant investment in working capital, excluding the impact of the Tender Offer ($\notin 25.2$ million) we recorded a net cash inflow of $\notin 3.9$ million in the period (2016: $\notin 2.2$ million). Together with available financing facilities, the Group remains adequately funded to pursue its stated growth objectives.

Dividend

The Board proposes to pay an interim dividend of 6.35 cent per share, an increase of 10% on last year's interim dividend, reflecting the Group's strong performance in the period. The interim dividend will be payable on 2 March 2018 to shareholders on the register at the close of business on the record date of 2 February 2018.

Outlook

As we move into the second half of our financial year we are closely monitoring activity levels in all of our markets. We remain conscious of the impact of political, regulatory and economic events globally on our business. Positive momentum in the Irish and Eurozone labour markets should position the Group well for further growth across its key business sectors.

We remain confident in the outlook for the business and expect to deliver continued profitable growth for the remainder of the financial year.

Notes supporting condensed interim financial statements

1. Basis of preparation

The condensed consolidated interim financial information of the Group has been prepared in euro in accordance with the recognition and measurement principles of International Financial Reporting Standards (IFRS), including interpretations issued by the International Accounting Standards Board ("IASB") and its committees and adopted by the EU. There are no new standards, amendments to standards or interpretations which are mandatory for the first time for financial periods commencing on 1 July 2017 which have a significant impact on the Group's accounting policies or on the reported results. The accounting policies adopted in the preparation of the condensed consolidated interim financial information are consistent with those applied in the Annual Report for the financial year ended 30 June 2017.

The figures for the half year ended 31 December 2017 are unaudited. The comparative figures for the half year ended 31 December 2016 are also unaudited. The amounts for the year ended 30 June 2017 represent an abbre viated version of the Group's full financial statements for the year on which the auditors issued an unqualified audit report. The Group is not subject to significant seasonal factors.

The Annual Report and financial statements for the year ended 30 June 2017 have been filed with the Registrar of Companies and are publically available. The preparation of financial information in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgements about carrying values of assets and liabilities that are not readily apparent from other sources.
