

## Three Essential Interview Tips

**Research the company** - Visit their website, specifically the 'About' page. It's also a good idea to check for any recent news articles

**Highlight relevant experience and skills** - Use the job specification to help you. Mention company values that align with your own

**Demonstrate your interest** - "Why do you want this job?" is a commonly asked interview question. Answer by incorporating your personal goals, understanding of the role, and how you'd be an asset to the company
